

23RD MAY 2013

DEMOLITION OF MELROSE, PEEBLES, & SELKIRK COURTS, BELVILLE STREET, GREENOCK

DEMOLITION UPDATE

The processing of the demolition materials is ongoing and soon you will start to see these materials being used to back-fill and re-grade the site. Once Safedem has completed the demolition processing, landscaping contractors will follow on to provide a new park area. The landscaping works are best carried out during the summer months, so it has been agreed to accelerate the demolition operations, to ensure that the landscaping can be carried out during the summer months. This means that our hours of operation will be Monday to Friday 8am to 6pm and Saturday 8am to 4pm. All going well, we are aiming to complete the demolition processing operations by the end of June.

We are aware that dust is created during these processing works and we have tried a number of methods to try and minimise the dust at source. Generally water is used as a measure to try and suppress the dust, and this is normally taken from nearby hydrants. Unfortunately, we are restricted to the amount of water we are allowed to use and the existing water pressure is low. This combined with the conditions (particularly the wind) is making this difficult to manage. We are continuing to try and find different ways to try and minimise the dust.

Sometimes the works might seem noisy. We will make every effort to minimise this wherever possible.

We are sorry for any inconvenience this may cause, and we will do all we can to keep the noise and any other disruptions to a minimum.

SITE SAFETY

It is vitally important that you stay well away from the demolition site. Our site fence clearly displays notices alerting passers-by to the dangers of demolition sites, and clearly advises to keep out. Please be aware that there is a water hose running across the road and pavements on Belville Street serving the site. We would ask for co-operation from everyone within the community to warn children, visitors etc. to keep away out of the site and to take extra care crossing the pavements and roads nearby.

MORE INFORMATION

If you require any information or if you have any concerns, please do not hesitate to contact **Tracey Sinclair**, or Janet McMillan our Community Liaison Team at **Safedem Ltd** on **0141 558 3433** or **01382 811444**.
